

Middle Years and Senior Years Sports Program

Caulfield Grammar School is committed to providing sporting teams for the Associated Public Schools Competition each school year. We have an obligation in this competition but, more importantly, value the sport program as an integral part of the opportunities for learning and community at Caulfield Grammar School.

As School sport is a compulsory part of life at Caulfield Grammar School, all students entering any year level is required to indicate their sports preferences for the Summer, Winter and Spring seasons (Years 7-9 x 3 seasons, Years 10-11 x 2 seasons, Year 12 x 1 season).

Junior School Sport

Junior School Sport provides the opportunity for all students to engage in a range of different sports. Students are provided with opportunities to develop their skills, learn to work as a team, understand the importance of good sportsmanship and etiquette, and build new friendships across year levels. Our program allows for specialist coaches to work with the students and be excellent role models.

Primary (Years 5-6) students change their chosen Sport each Term. Students attend a compulsory training session from 3.30pm-4.30pm on Monday afternoons and participate in competition against other schools on Wednesday afternoons during school time.
